

RIDMA SANKA JAYATHUNGA

Project & Transport Coordination Professional | MSc Intelligent Transport & Smart Logistics

+371 25472036 | +94 719122320 | sanka.2jayathunga@gmail.com | linkedin.com/in/ridma-sanka-jayathunga-kamkanamge-425417155

PROFESSIONAL PROFILE

Transport and logistics professional with 4+ years of progressive experience in project coordination, transportation management, and operations planning across fleet, warehouse, and infrastructure-linked functions. MSc in Intelligent Transport and Smart Logistics from TSI, Latvia (Overall Score: 8.69/10, Top 10% of cohort; Best Graduate 2026), with applied research on data-driven, technology-enabled transport systems. Experienced in project scheduling, budgeting, KPI reporting, and multi-stakeholder coordination, with a proven record of delivering 12-15% cost reductions through structured, data-driven project execution. Strong interest in electric vehicle (EV) and smart-city transport initiatives, seeking to contribute to Lanka Metro Transit's mission of reshaping city travel with international standards of service, accessibility, and safety.

EDUCATION

MSc - Intelligent Transport and Smart Logistics

2024 - Jun 2026

Transport and Telecommunication Institute (TSI), Riga, Latvia

- Overall Score: 8.69/10 · Top 10% of cohort · Best Graduate 2026 · Perfect Score (10/10) in Decision Making in Transport & Logistics
- Relevant modules: Supply Chain Management, Transport Economics, Smart Warehouse, Data Analysis & Business Forecasting, Simulation Modeling

BSc (Honors) - Transport & Logistics Management

2016 - 2020

University of Moratuwa, Sri Lanka

- GPA: 2.91/4.0 · 4-Year Honors Degree · 24-week supervised industry internship in Port Operations (Port of Colombo)
- Thesis: "Improving LCL General Cargo Delivery Using Single Window System - Port of Colombo"

APPLIED RESEARCH - SMART TRANSPORT SYSTEMS

MSc Thesis (Grade: 9/10)

Real-Time Cost Prediction Model for Freight Transport Operations: A Multi-Factor Data-Driven Approach

Supervisor: Prof. Dr. Irina Yatskiv (Jackiva), Transport and Telecommunication Institute, Riga, Latvia

- Developed FreightIQ - a technology-enabled freight cost prediction system integrating fuel price, route distance, cargo weight, seasonality, and macroeconomic indicators for real-time cost estimation, demonstrating capability to plan and deliver technical, data-driven transport projects end-to-end.
- Key outputs: predictive model, public web prototype, and a conference abstract accepted for RaTSiF-2026, reflecting strong technical documentation and reporting skills.

PROFESSIONAL EXPERIENCE

Executive - Transportation Management

Nov 2022 - Jun 2024

Logicare Private Limited, Colombo, Sri Lanka

- Coordinated and monitored transportation project activities across a 10-member team, sustaining a 98% on-time delivery rate through structured planning, scheduling, and progress reporting.
- Achieved a 12% cost reduction through vendor coordination, budgeting, and transportation economics analysis.
- Prepared periodic KPI dashboards and progress reports tracking cost per mile, delivery accuracy, and fleet efficiency for management review.
- Implemented data-driven route optimization initiatives, coordinating with suppliers and internal stakeholders to improve fuel efficiency and fleet utilization.

Assistant Administration Manager

Jan 2022 - Oct 2022

Spice Lab by Ceylon Pvt Ltd, Colombo, Sri Lanka

- Established SOPs, administrative policies, and documentation systems for a start-up logistics operation from the ground up.
- Managed budgeting, payroll, and cost-control reporting, and coordinated cross-functional supply chain workflows with multiple stakeholders.

Assistant Transport Manager

Apr 2021 - Jan 2022

Kingfisher Logistics Private Limited, Colombo, Sri Lanka

- Delivered a 15% fuel cost reduction through consumption analysis, driver behavior monitoring, and fleet optimization planning.

- Implemented preventive maintenance scheduling, reducing vehicle downtime by 20% and improving fleet availability - directly relevant to infrastructure and asset upkeep coordination.
- Supervised container yard operations, coordinating space utilization, turnaround time, and operational compliance.

ERASMUS+ INTERNATIONAL EXPERIENCE

Erasmus+ BIP - Entrepreneurship and Innovation Skills for Future 2025

EEK Mainor (Estonian Entrepreneurship University of Applied Sciences), Tallinn, Estonia

- Blended intensive programme on entrepreneurship, digital transformation, and the Ülemiste Smart City ecosystem; selected based on academic excellence at TSI.

Erasmus+ BIP - Research Project Planning and Proposal Writing Mar - May 2025

Istanbul Gelişim University (IGÜ), İstanbul, Türkiye

- Developed a research proposal aligned with UN SDG 12 (Responsible Consumption and Production); selected as one of the highest-graded students in the MSc cohort.

CORE COMPETENCIES

- Project Coordination, Scheduling & Reporting
- Budgeting & Cost Control
- Stakeholder & Cross-Functional Coordination (consultants, contractors, suppliers)
- Infrastructure & Fleet Asset Management
- Transport & Logistics Planning · Route Optimization
- Data Analysis & KPI Reporting (MS Excel Advanced, Python)
- SOP Development & Process Improvement
- Smart Transport / EV & Technology-Enabled Systems (Applied Research)

PUBLICATIONS & RECOGNITION

- Best Graduate, TSI - Transport and Telecommunication Institute (2026), ranking 1st in the MSc Intelligent Transport and Smart Logistics programme.
- Conference Abstract Accepted - RaTSiF-2026: "Real-Time Cost Prediction Model for Freight Transport Operations: A Multi-Factor Data-Driven Approach."
- Erasmus+ Scholarship Recipient (×2) - selected based on academic rank at TSI, Latvia.
